

Want to make your life easier?

Time is something everyone says they are short of. With this in mind we - Cynthia and Zara - started a business called **Magic Wand Solutions** (MWS) which aims to make time for people.

Having been in full time careers for over 20 years, within special education, we have first hand experience of trying to juggle work and home commitments. We are well aware that life can become disorganised and when something out of the ordinary or bigger than usual comes along, it causes stress and anxiety and one's world can suddenly seem much more complicated.

MWS aims to relieve our customers of the feeling of being overwhelmed. We are happy to tackle a task in its entirety or work alongside a customer. We offer any degree of support specified by them.

In our experience, a small amount of assistance can have a big impact. Alternatively, by removing a big obstacle, for example, blitzing a house or garden, a person can feel enabled to take back control and cope once again.

Whether you are short of time, in need of redistributing time or facing an emergency, we are pleased to make time for you by providing a service of assistance tailored to your needs.

“I can't thank you enough for how you have changed my life. Now everything is tidied into smaller areas and has its own place, I think I shall be able to cope. I am going to try very hard to keep this regime up.”
A Reid

“Heartfelt thanks for all you do for my parents. I feel I can now enjoy time out without worrying. They always look forward to your visits.”
K Ford

“Cynthia and Zara worked tirelessly around us and the removal company to ensure that we left the house spotless for our buyers. They seemed to know instinctively what to do next and we so enjoyed having them in the house. Magic Wand Solutions also turned a new empty house into our home in no time – we could never move house again without them.”
L Hambidge

Because we appreciate each person's circumstances and needs are different, we welcome enquiries about what we can do and how we can help. We will only accept a job if we are able to do the work ourselves. We do not sub-contract. We are fully insured. ★
